THREE THOUSAND FIRE WORKERS  
HAVE ACCOMPLISHED  
WONDERS.

# BURYING THE DEAD TODAY

Relief Parties Are Doing All in Power  
to Aid Sufferers—Armed Troops  
Guard Property.

Hayward, Wis., Oct. 11.—At various points in the forest fire zone between Warroad, Minn., and Rainy river the reports to the fire rangers indicate 139 bodies have been located. Of these but ninety have been recovered and only sixty identified.

Guard Streets.  
Last night the streets of Rainy River were patrolled by armed guards and the militia from Bemidji, Minn., guarded Old Bemidji.

Estimates Too Low.  
Bemidji, Minn., Oct. 11.—With hundreds of known dead today in the great Minnesota-Canadian forest fire, it is thought the estimates now made are far too low. The reports here hourly add to the general apprehension. Warroad, Minn., threatened yesterday is now out of danger. The town is crowded with refugees. Supplies are being rushed to their relief.

Carry Aid.  
Minneapolis, Minn., Oct. 11.—A Canadian-Pacific train carrying Minnesota state officials and tents for 2,500 refugees of the Rainy River forest fire, left here today. Governor Elmer, of Minnesota has cancelled all speaking dates and is hurrying to the fire zone.

Loss Is Heavy.  
The loss of life in the forest fires is now estimated at less than a hundred. There are thirty dead in the morgue here and that many more were taken to Duluth. The financial loss may reach five million dollars. The fire is now well under control.

Start Parties Out.  
Winthrop, Manitoba, Oct. 11.—Relief parties have left here to the aid of forest fire victims and the city council has voted \$2,000 to be used for the same purpose.

# CLARENCE DARROW WILL DEFEND THE FAMILY OF DIETZ

Chicago Lawyer Is to Act As Attorney  
For the Accused Murderer  
and His Wife and Son at  
Hayward.

[BY UNITED PRESS.]  
Hayward, Wis., Oct. 11.—At 10:30 this morning Mr. and Mrs. John Dietz, appearing exceedingly nervous, entered Judge Rindard's court room, followed by Louis Dietz and the three faced the judge while the paper charging them with the murder of Oscar Harp, was read.

Shaking so he could hardly speak, John Dietz asked the court to postpone the hearing until Wednesday morning. Dietz said he had retained C. S. Darrow of Chicago, as his attorney.

The latter was not at the hearing, but will go to Hayward from Chicago, probably tomorrow to confer with the Dietz family and prepare for the speedy trial which has been assured by District Attorney Davis.

Sentimental Changes.  
Madison, Oct. 11.—Letters relative to the action of Governor Davidson in the Dietz case, received at the governor's office today, have shown a marked change in the attitude of the people toward Dietz. Several letters commended the action of the governor.

A letter from G. M. Froelich of St. Paul, who piloted Attorney General Gilbert and Colonel Munson to the Dietz cabin, declares the attitude of the people of St. Paul and Minneapolis now radically against Dietz, because Dietz refused to accept to the offer put forth by Gov. Davidson.

The governor is today at his summer home at Lake Koshong.

# VERMONT SOCIETY WOMAN INVOLVED

In a Strange Murder Mystery Surrounding Shooting of Man at  
Work in Bar Room.

[SPECIAL TO THE GAZETTE.]  
Lunenburg, Vt., Oct. 11.—The mystery surrounding the case of Mrs. James Marshall Dodge, a wealthy society woman of this city, whose preliminary hearing on the charge of having murdered William A. Heath, a painter employed in her house about the middle of last month, was begun here today, seems to be as puzzling as it was at the time of Mrs. Dodge's arrest. Heath, a man of about forty years, married and having several children, was killed by a shot in the back while he was employed in painting the woodwork in Mrs. Dodge's bedroom. Mrs. Dodge asserted, at the time of her arrest, that she had not fired the fatal shot and did not know who had fired it. She expressed the belief that Heath had committed suicide, but the location of the wound strongly argued against that theory. Mrs. Dodge steadfastly adhered to her original statement and it is believed that the authorities have been unable to find any motive to substantiate the theory of Mrs. Dodge's guilt. The fact that the revolver from which the fatal shot was fired, was identified by the police as the property of Mrs. Dodge only adds to the mystery of the case. Mrs. Dodge is about 48 years of age, a widow and of good social standing in the community.

# ST. LOUIS WELCOMES ROOSEVELT PARTY

Governor Hadley and Other Notables  
Met Colones at Depot—Speaks  
at Coliseum Tonight.

[SPECIAL TO THE GAZETTE.]  
St. Louis, Mo., Oct. 11.—The Roosevelt party arrived in this city from the South shortly after 7 o'clock this morning. The former president was met at the Union station by the full committee in charge of the day's arrangements, headed by Governor Hadley. After breakfasting at the Hotel Jefferson as the guest of the Business Men's League, Col. Roosevelt was taken on an automobile ride about the city. At the conclusion of the ride the distinguished visitor was turned over to the Traffic Club, whose guest he was at luncheon. The program for the afternoon and evening included a visit to the aviation meet, an address to the school children in North St. Louis, supper as the guest of the Republican State and city organization and a political speech in the Coliseum.

To Address C. of C.  
Peoria, Ill., Oct. 11.—The people of Peoria are making great preparations for the reception of ex-President Roosevelt, who is to visit here tomorrow to speak at a banquet under the auspices of the Knights of Columbus. The former president will be the guest of Archbishop Spalding during his stay in the city. The banquet will take place in the Coliseum and covers will be laid for more than 1,000 guests. In addition to Colonel Roosevelt the speakers will include Bourke Cochran of New York, Robert Emmet Kane of St. Louis and Robert Henry Little of Chicago.

# CHRISTIAN CHURCH WORLD CONVENTION

Several Thousand Delegates Are  
Attending Big Session at Topeka  
—Other Gatherings.

[SPECIAL TO THE GAZETTE.]  
Topeka, Kan., Oct. 11.—Several thousand delegates from every quarter of the civilized globe are gathered here to attend the New Century International Convention of the Christian Church, which opened here today for a session of seven days. It is by far the largest international gathering of that denomination ever held and promises also to be one of the most important in the history of the church.

The Topeka gathering, which seats 2,000 persons, was filled to its capacity at the opening session today. The delegates were welcomed by J. W. Gilling, chairman of the local committee, on behalf of the citizens of Topeka; by Judge J. N. Hawley, mayor of Wichita, on behalf of the citizens of the Christian Church in Kansas; and Governor W. L. Staebli on behalf of the state. The rest of the opening session was devoted to three-minute talks by missionaries from every continent and every nation field in the world, the object being to give the delegates a clear idea of the mission work of the church in all parts of the world.

An unusually interesting program has been prepared for the conference, with special features for every day. Saturday will be "Brotherhood Day" and on Sunday thousands will attend the communion service in the afternoon. Some matters of the utmost importance will come up for consideration at this gathering. One of the most important matters to be settled is the question whether a change in the character of the international conventions shall be made in the future. Hereafter they have been mere mass meetings and the result has been that the church has been unable to provide that the convention should after this consist of delegates of equal standing only and it is expected that this proposition will lead to a long and heated debate. Another important matter is the question of consolidating the ten different church boards into one or more boards. The merger committee will probably recommend that there be three boards, Home, Foreign and Women's. This consolidation would mean a considerable saving of administrative expenses. The offer of R. A. Long, a wealthy lumberman of Kansas City, to present the plan of the Christian Evangelical of St. Louis, which he purchased recently to the church brotherhood, will also come up for consideration and will probably be accepted.

Massachusetts W. C. T. U.  
Atleboro, Mass., Oct. 11.—Mrs. Katherine Lent Stevenson, state president of the Massachusetts Women's Christian Temperance Union today opened the 27th annual convention of the state organization in the Atleboro Methodist church. Several hundred delegates, representing the various sections of the state, were in attendance among them two of the charter members, are in attendance at the gathering, which will continue for three days.

Georgia W. C. T. U.  
Madison, Ga., Oct. 11.—A large and representative attendance marked the opening here today of the twenty-ninth annual convention of the Georgia organization of the W. C. T. U. The annual reports show a gratifying increase in membership during the past year.

# JURY SELECTED TO TRY JANVRIN

BELOIT POLICEMAN'S CASE IS  
NOW BEING JUDGED BY  
TWELVE MEN.

# OPENING ARGUMENTS MADE

Will Probably Take Several Days to  
Complete It—Many Witnesses

In circuit court this morning the special venire of fifteen men, which was ordered by Judge Grimm yesterday afternoon when the attorneys had failed to find twelve who were acceptable in the original panel, was exhausted. The State and the defense in the Janvrin murder case each had exercised six peremptory challenges. They had one apiece left and another special venire summons for ten men was issued shortly after ten o'clock. Many of the prospective jurors had to be excused because they had formed opinions as to the guilt or innocence of the accused from articles they had read in the newspapers.

Jury Secured.  
The second special venire came in at 1:30 this afternoon and about two o'clock the twelve men who are to try the case were accepted. Whereupon, Judge Grimm excused the balance of the original panel until Oct. 24 and those of the last special panel who were not chosen for this case for the entire term. The jury consists of the following:

- E. E. Gabriel of Evansville.
- W. L. Paul of Milton.
- R. W. Taylor of Johnston.
- Harry Green of Porter.
- V. C. Holmes of Union.
- Andrew Emerson of Spring Valley.
- C. W. Wisch of Janesville.
- S. S. Thomas of La Prairie.
- H. O. Anderson of Clinton.
- B. C. Hanson of Newark.
- Herman Hunt of Janesville.
- Charles Hackwell of Bradford.

Opening Statements.  
District Attorney J. L. Fisher, in his opening statement, said that the prosecution would show that Frederick J. Janvrin, on the night of March 30, while acting as a police officer in the city of Beloit, feloniously and wilfully, in the heat of passion and with an utter disregard of human life, though not with intent to kill, caused over the head and then shot down and murdered one John Hayes, aged 55, a man prominently engaged in hard work and disputation, without declaring him under arrest or calling upon any of the many witnesses to assist in making such an arrest.

M. G. Joffe, in his opening statement, said that the defense would show that, notwithstanding what might be her attitude now, Miss Jennie Leard (Mrs. Behrend) was trying to get away from Hayes; did not wish for his company even if he was a neighbor; that complaints against Hayes for insulting women had been lodged with the police therebefore; that he never worked and associated with hoboes; that during the previous year he had been arrested and jailed many times for drunkenness; that shortly before the tragedy he had refused arrest by Janvrin; and that if he had been in any fit physical condition the wounds in his hand would not have produced death.

At the conclusion of the statements Judge Grimm announced a recess and placed the jurors under the care of the bailiffs, Charles Rhinbold of Turin and Floyd Carter of Beloit, who were enjoined not to permit them to read newspapers containing any reference to the trial or letters that have not been inspected until the trial is over. It was expected that Mrs. Behrend would be the first witness called by the prosecution.

It is now planned to have him start as soon as possible for England where he is to be placed under the care of specialists. Queen Amelie is to accompany him.

Enemies Make King Outcast.  
King Manuel's own story of the revolution, which led to his deposition as ruler of Portugal, was told in graphic style as follows:

"I am an outcast today because of the plots and intrigues of political enemies. I have been criticized for not fighting for my throne, but I am not discouraged.

"I had no fear of personal danger and would gladly have sacrificed even my life for my country. But when I found that there were plots on all sides and that those I supposed to be my best friends were secretly aiding the conspirators, I lost heart. Physically I was strong enough, but morally I was too weak—too disheartened—to fight these many intrigues. So I fled.

Denies People Want Republic.

"The thing I feel most keenly is that I have been driven from my own country.

"If parliament had decreed that a republic should be established I would not have stood in the way. But the people did not want a republic. They were opposed to having the monarchy destroyed. They may accept the republic forced upon them rather than have any bloodshed, but it will be against their will.

"As for myself, I have no worries about the future. I have youth and health and these two things are all that a man should ask."

Conflicts Threaten Portugal.

Lisbon, Oct. 11.—The revolutionary leaders, having overthrown the monarchy, are now confronted with the scarcely less serious task of putting an end to excesses on the part of the rougher element of their own followers, who, having had a taste of mob rule, are prone to continue lawlessness for lawlessness' sake.

The decree of summary banishment for the religious orders gave excuse for brutal outrages against the clergy.

Police Adopt Severe Measures.

The provisional government has now recognized the seriousness of the situation, and the police have adopted severe measures to prevent the population seeking the religious establishments and to check the demonstrations against the religionists pending their expulsion.

Reports that the clerics were carrying on a guerrilla warfare from the windows of their establishments, inflamed the public sentiment against the religionists, many of whom were chased from their churches and convents.

Barcelona Excitement Grows.

Barcelona, Oct. 11.—A state of increasing excitement reigns in Barcelona. The success of the revolution in Portugal appears to have fanned the fire of rebellion that has smoldered since the furious outbreak of a year ago.

General Weyler, captain general of Catalonia, admits that the strike of miners here is taking on a revolutionary character. He says his orders are to suppress any active disloyalty with a firm hand.

## MAYOR PLAYS LEADING ROLE.

**Rock Island Executive Kicks Burlesque Star Before Crowded House.**

Moline, Ill., Oct. 11.—George W. McCaskin, mayor of Rock Island, Ill., played the leading role at the Moline theater at the performance of "The Gay Morning Glories," a burlesque troupe, when he rose on invitation and kissed the star, Miss Mabel Maltman, twice, before an audience of 3,000.

Miss Maltman, while singing "Has Anybody Got a Kiss to Spare?" walked in the direction of the box in which McCaskin was seated.

"Sure, right here," sang out his loud or as he stood up and leaped out of the box.

The audience went wild.

Brother's Blood May Save.

Atlantic, Ga., Oct. 11.—After suffering with pellagra for two years Mrs. M. E. Bush of Millidgeville, Ga., may be restored to health as the result of her two brothers giving up their blood in the aid of the transformation theory which the attending physicians had decided was the last hope of saving her life.

Laborer Is Held to \$100,000.

Sharon, Pa., Oct. 11.—After years of sweating toil at a blast furnace here Mack Madison, a Swede, left for his native land to obtain a fortune of \$100,000 which he had heard a relative has left for him. He says he will return to America to live.

It is a fallacy to believe that advertising will sell anything. The store or the article advertised must first of all attract attention to it.

## CLINTON.

Clinton, Oct. 10.—Mr. and Mrs. George M. Van Velsor of Williams Bay, Wis., spent Saturday and Sunday here, the guests of Mr. Van Velsor's brother, A. M. Van Velsor, corner Cross and Church streets.

Mrs. Booth and son, William of Chicago, came out to attend the funeral of Mrs. Rachel Weaver. She will visit her sister, Mrs. F. M. Barrus, and family a few days before returning to the city.

Mr. and Mrs. A. Torpenning of Chicago are visiting Mrs. Torpenning's parents, Mr. and Mrs. H. A. Anderson. Mrs. Mayberry is moving her household goods to the farm.

The local chapter of the Eastern Star gave a farewell reception at their lodge rooms for Rev. and Mrs. Clyde McGee and Mr. and Mrs. James Selkirk who are soon to move from Clinton, the former to Chicago, and the latter to Des Moines.

Miss Kittle V. Williams went to the Belvidere homecoming this morning.

George Klynay taught Miss Jennie Dean's room during her absence on account of the death of her mother.

Harold Tuttle of Beloit attended the funeral of Mrs. Rachel Weaver yesterday afternoon.

The local grain growers are harvesting their seed corn and preparing new beds and coverings for seedlings next season. This season has been very much better for grain growing than for the past two or three years.

The Twentieth Century club met last night with Mrs. F. W. McKinney and an exceedingly interesting program was given under the leadership of Mrs. Clyde McGee as chairman of the committee, of which every member did their part perfectly. The piano solos by Madeline Enalline L. C. Hatch and Merritt Jay Stevens were very enjoyable as was also the vocal solo by Mrs. F. W. Herron.

Doctors A. S. Woolston and W. O. Thomas went to Beloit on Monday via Dr. Woolston's auto to see E. J. Foley at Beloit hospital.

## EAST LA PRAIRIE.

East La Prairie, Oct. 11.—About sixty friends and neighbors attended the reception given to Mr. and Mrs. Herman Kellogg in the Grange hall last Thursday evening. The evening was spent in playing cards. At a late hour a very elaborate supper was served.

James and Bill Campbell were Saturday and Sunday visitors at Mr. and Mrs. Clough of Fulton.

Mrs. Sidney Thomas returned home last Friday from the Mercy hospital. With her are Mr. and Mrs. H. Fisher, T. J. Murphy, Mr. and Mrs. Eliza H. Murphy, Mrs. Grace Heck, Mrs. Eliza H. Murphy, Mrs. Grace Heck, Mr. and Mrs. Glenn Burdick of the town of Beloit, and Mrs. Frank Elck, daughter of Mr. and Mrs. Frank Elck, who is able to be about the house again after two weeks' absence.

Miss Ella Murry was an over Sunday visitor at Miss Anna Coen's. Mrs. William Conway is slowly recovering from her painful accident. Mrs. Conway splintered one of the bones in the lower limb.

Will Gleason has moved his family into their beautiful new home. Mr. and Mrs. John Terry visited Mr. and Mrs. James Gage of Milton Sunday.

## BRODHEAD.

Brodhead, Oct. 11.—Last Saturday afternoon Miss Pearl Atwood entertained a number of young lady friends at a bridge whist party. A jolly good time was given the visitors and choice refreshments were served.

Archie Biles was a passenger to Madison on Monday.

Miss May Bowen, clerk in the Department store at Sheboygan, came over from that city Saturday evening remaining over Sunday with her parents, Mr. and Mrs. E. W. Bowen.

Mr. and Mrs. Carl Tiam arrived home from St. Helena, Oregon, a few days ago in company with Mr. Will Ross and Mr. and Mrs. George Ross who visited Sunday in on Monday.

Madame W. N. Cobb and W. H. Flock spent Monday in Janesville.

Miss Hazel of Janesville, who was the guest of Brodhead friends a few days returned to her home on Monday in company with her mother who was also visiting Brodhead people.

Mrs. Frank Blackford and children spent Monday with Julia relatives.

James Boyan of Janesville spent Sunday in Brodhead with his sister, Mrs. P. H. Burns and others.

Miss Helen Beckwith was home over Sunday returning to Monticello where she is engaged by the Franco-American Hydraulic Company of Chicago.

Mrs. Nancy Immore of Julia, has been visiting her mother, Mrs. J. A. Davis, the past week. On Saturday last occurred her 32nd birthday anniversary. The occasion being duly observed by a chicken pie dinner.

## SOUTH MAGNOLIA.

South Magnolia, Oct. 10.—Mrs. T. T. Harper and Mrs. Sude Man and sons are expected home from the west the latter part of the week.

Corncutting is about finished in this locality and late potatoes are promising to be a better crop than had been expected.

Mr. and Mrs. T. M. Harper entertained the following at dinner Saturday in honor of Mr. Harper's seventy-fourth birthday: T. T. Harper and daughter, Ella, Mrs. Frank Van Sledge and daughter, Mrs. John Boyd and daughters of Janesville, Mrs. G. J. Clark and daughters of Calverly, Mrs. Will Harper, and Herman Man. Mr. and Mrs. Will Harper entertained the same company at a five o'clock tea.

Madame Glen Clark and John Boyd and their daughters, who have been spending the past few days with Frank Van Sledge and family, returned to their homes Sunday.

Mr. and Mrs. Elliot Fraser and family spent Sunday in Magnolia.

Mr. and Mrs. Siles of Menomonee and Miss Zell Barnes of Brodhead were guests at the Palmer home a part of last week and the forepart of this week.

Mrs. Emma Pugh of South Bend, Wis., is visiting relatives here.

Bill Nye's Successor Dead.

Douglas, Wyo., Oct. 11.—M. C. (Bill) Barlow, editor of "Sage Brush Philanthropy" and successor to Bill Nye as editor of the Laramie Boomerang, is dead of heart disease here at the age of fifty years.

## "LITERARY THIEF" UP 21 YEARS.

**Burglar Who Left Notes in His Wake Is Sentenced.**

New York, Oct. 11.—George Wright, "the literary burglar," was sentenced to 21 years in Sing Sing. In nearly every house he robbed Wright left a note, commending the owners for the quality of the silver and jewelry he had taken, or abusing them when the plates were he discovered was not worth carrying away.

Vermont People, 355,954.

Washington, Oct. 11.—The population of Vermont, as enumerated for the thirteenth census, showed an increase of 12,316, or 3.6 per cent, the total number of inhabitants being 355,954, compared with 342,641 in 1900.

...and also bring quick results.

## CARUSO WOUNDED WITH SWORD.

**Tenor Receives Thrust in Knee on Stage at Berlin.**

Berlin, Oct. 11.—During the last act of "Carmen" Enrico Caruso received an accidental thrust of a sword in his knee. The wound is not considered serious.

## HORN OF PLENTY OVERFLOWING.

**Abounding Prosperity Is Seen in Vast Yield of Crops.**

Washington, Oct. 11.—Official figures issued by the crop reporting board of the department of agriculture paint a glowing picture of material prosperity for the United States.

Corn and oats are bumper crops, the former having three billion bushels and the latter exceeding last year's billion-bushel crop by nearly 100,000,000 bushels.

Even the wheat crop turns out to be only 45,000,000 bushels behind the big yield of 1909 and has been exceeded but four times in the nation's history.

The great states of the Mississippi valley have rolled out fatuous harvests, breaking the record for acreage and yield of corn and promising the country fat hogs without limit.

Too Literal.

The latest arrival at the Bloomsbury boarding house was not so much annoyed as disappointed. "When," he said to his landlady, "you told me that you would provide me with board—that and here he pushed away his half-eaten steak and helped himself to prunes—"I was not aware that you meant it literally."—London Globe.

What You Can Grow in the  
Texas Gulf Coast Country

## FIGS

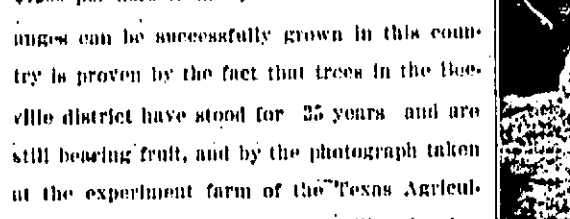

Branch of Fig Tree Grown in Gulf Coast Country.

The fig is one of the earliest fruits to grow if the conditions are right, and will produce from \$200 to about \$600 per acre.

The Magnolia fig as raised in the Gulf Coast country has the distinction of being one of the finest and at the same time the earliest fruit in the market.

The comparatively limited area in which they can be grown successfully, the practically unlimited market and the great demand renders the field all the more inviting to the prospective planter of the commercial orchard.

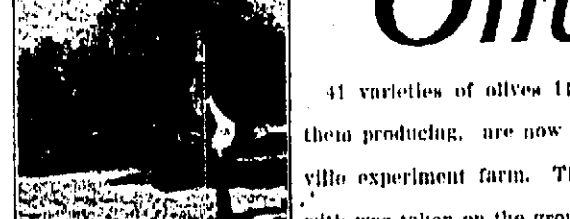

Oranges, as everyone knows, will produce from \$100 from three-year-old trees, to \$1000 to \$1200 per acre from 9-year-old trees. That oranges can be successfully grown in this country is proven by the fact that trees in the Beeville district have stood for 25 years and are still bearing fruit, and by the photograph taken at the experiment farm of the Texas Agricultural Experiment Station at Beeville, showing the Satsuma tree heavily laden with fruit.

Orange Orchard in Texas.

Olives

41 varieties of olives 11 years old, most of them producing, are now located at the Beeville experiment farm. The photograph here with was taken on the grounds.

Olive Orchard in Beeville.

## THE BEEVILLE DISTRICT LAND

This land has a soil of rich alluvial deposit, from 18 inches to six feet deep with a clay sub-soil or marl-rock, which is porous and holds the moisture. The land in its virgin state has on it the "mesquite" tree and "White Chaparral" which is easily cleared, the cost of clearing being from \$7.50 to \$10.00 per acre, and it has been estimated that the wood will pay for the clearing.

The soil is especially adapted for the growing of citrus fruits, such as oranges, grapefruit, etc., as well as fig and all truck garden products. One man cleared 500.00 on a single acre of bees.

This land is very fertile, lies slightly rolling, just enough to make it perfectly drained, and not enough to wash. Perhaps an average variation to the mile from extreme high to extreme low of 8 or 10 ft.

## RESULTS IN DOLLARS AND CENTS OF PRODUCE RAISED ON BEEVILLE DISTRICT LAND

Onions from \$250.00 to \$700.00 per acre, winter crop.

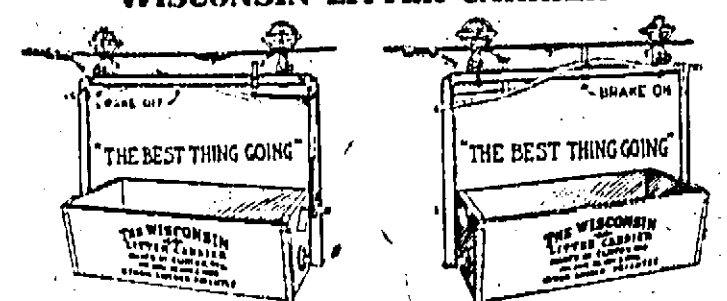

Cabbage from \$300.00 to \$700.00 per acre, winter crop.

Cauliflower, celery, tomatoes and other truck products produce accordingly.

Figs go about \$600 per acre per annum. Oranges about \$100.00 for three-year-old trees and gradually increase so that trees 5 years old will produce \$1000.00 to \$1200.00 per acre. Grapefruit about \$600.00 per acre.

Grapefruit from \$1500.00 to \$2500.00 per acre and it is possible under the highest scientific method of cultivation to make Grapefruit produce \$6000.00 per acre. Olives, the Texas Agricultural Station at Beeville advise, will produce about \$1000.00 per acre.

## WISCONSIN LITTER CARRIER

If interested in litter carriers, look over the above cut of the Wisconsin Litter Carrier with care as it has merits that no other carrier has. Note the patent brake which holds the car at any place on the track desired while loading. It is easily operated from either end of the car. This feature alone is worthy of consideration in buying a car. It is the best invention up to date. The patent trip block is another worthy consideration as it hangs loose on the track and always in the right position to trip car as it passes over it and can be readily moved with a fork from place to place as desired without having a ladder to climb up to adjust it. There are also other features about the Wisconsin Litter Carrier worthy of consideration to the prospective buyer. It is built strong and durable. If interested, write for more information. Agents wanted in every town.

MANUFACTURED BY STRICKLER HAY TOOL CO.

Address the above or write to the patentees

BYRON SNYDER, CLINTON, WIS.

In all probability this land will advance in price to \$300.00 to \$500.00 per acre in the next few years, and that when it is in its highest state of cultivation it will surpass even the Southern California Land which now sells as high as \$1000.00 to \$2000.00 per acre.

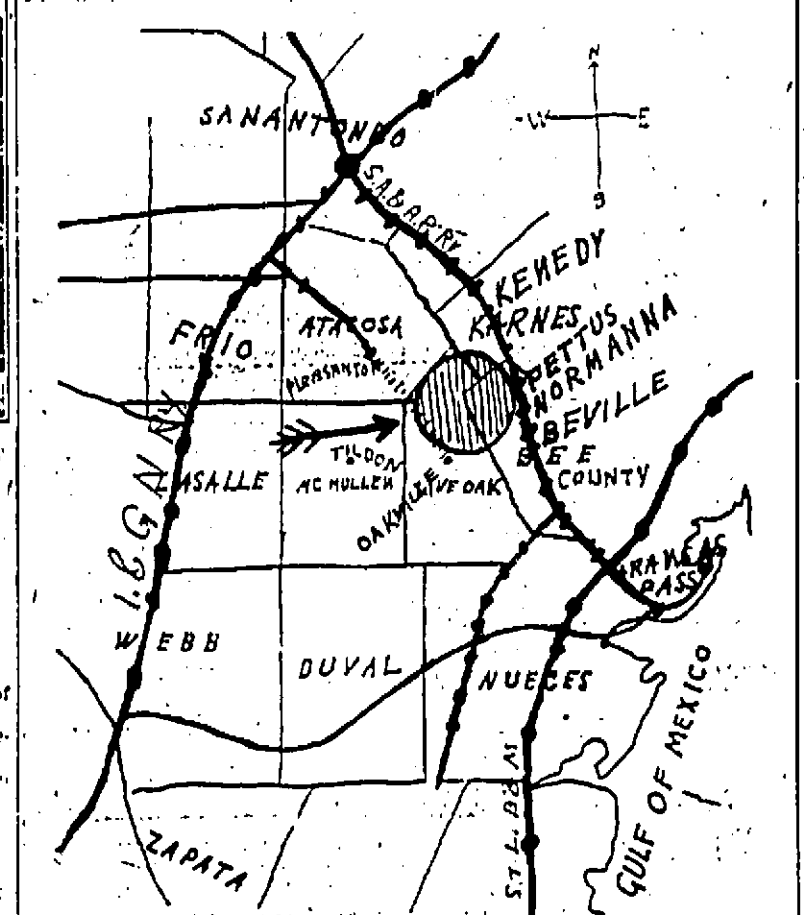

## THE REASON IT WILL SURPASS SOUTHERN CALIFORNIA LAND

It is 1500 miles nearer the market, fertilizer is unnecessary, irrigation is unnecessary, it produces now more oranges per acre. They can get their oranges to market six weeks earlier than California, the fruit is equally fine in flavor.

## TEXAS WON TROPHY CUP HIGHEST AWARD FOR CITRUS FRUITS AT AN EXHIBITION IN WHICH 26 STATES EXHIBITED.

The climate in the Beeville district is probably much more pleasant than most people imagine. The lowest temperature recorded in 17 years at San Antonio, was 8 degrees above zero, at Corpus Christi 11 degrees above zero. Our land is directly between these two cities.

LOCATION OF THE GREAT WESTERN LAND CO. of Minneapolis, Minnesota, which is represented in Southern Wisconsin by the writer, J. J. Graff, of this city, offers for sale, from its tract of 8,000 acres, a limited number of ten to eighty acres tracts at fifty dollars per acre, on favorable terms of payment. This land is located in the Beeville district, about 45 miles southeast of San Antonio the great winter resort of Texas, and about 45 miles northwest of Aransas Pass, the new deep-water harbor which is being built by the U. S. Government and which is the only deep-water harbor between Galveston and Brownsville. Beeville of 4,500 is about 18 miles distant, other towns in this

MAP SHOWING BEEVILLE DISTRICT AND LOCATION OF OUR LAND.

locality being Oakville, Kennedy, Pettus, Tuleita, Normanna, and Mineral, the closest town being about 11 miles, on the San Antonio and Aransas Pass Ry.

ENTHUSIASTIC.—Thousands of people have gone to Texas within the last few years and nowhere are people so enthusiastic as those who have located in the Gulf Coast Country. The richness of the soil, the wonderful climatic conditions, the fruits and products being grown to day on all sides of this land prove every statement made in the foregoing.

WHAT CULTIVATED.—The remarkably low price of fifty dollars per acre, at which this land is being offered is its most attractive feature. Land within a few miles of Beeville, now under cultivation is today worth from \$100.00 to \$600.00 per acre. Southern California land which in its wild state was not equal to this land is now selling for many times that much.

If you want to locate in a new country where fortunes are going to be amassed in a few years, get into the Gulf Coast Country of Texas. Write now for further information about this land to

## A COW WORTH OWNING.

"Some cows may give better milk, but no cow in the world gives so much of it as Josephine, an eight-year-old Holstein-Friesian, the queen of the herd of the Missouri State College of Agriculture. Just now Josephine is undergoing a test to determine how much milk she will give in a year. Having already broken all the other lactation records it is a pretty safe bet that Josephine will establish a clear title to the heavy-weight milk producing championship and hold it safe for some time.

"Colombo the 4th Johanna, owned in Wisconsin, used to be the prize cow, but Josephine has beaten every one of her records. In the first six months of the present test Josephine produced 18,824 pounds of milk against 15,541 pounds for Colombo. In one day Josephine produced 110.2 lbs; in one month Josephine produced 2,360 pounds against the Wisconsin cow's 2,782 and she has beaten the Wisconsin cow's averages for two, three, four, five, and six months.

"The average farmer is satisfied if his cows give ten quarts of milk a day, but Josephine gives enough to fill fifty-four quart bottles. Giving the average person two-thirds of a pint of milk a day who could supply a hotel with 165 boarders. The butter from her milk would be enough to supply forty boarders three times a day. Naturally with such a high production, the milk given by Josephine is inferior to that given by the average dairy cow, although it meets and exceeds the legal requirements of butter fat. It is estimated that her milk will produce a revenue of \$1,200 to \$1,500 a year.

This is the story of a prize cow, published in the November number of the "Technical World Magazine," but it is no fairy tale, and simply demonstrates what scientific breeding is accomplishing for the farmer.

The time has gone by when any thing that looks like a cow passes muster, for the fact is generally recognized that quality is of first importance and so intelligent attention is given to producing the best of everything on the farm.

There was a time, back in the gloaming, when the heir of the family hid himself forth at sunset with a three-legged stool in one hand and a wooden bucket in the other, to interview the herd which came laboriously over the hills in response to his muffled call.

They were a scrawny lot, and after half a dozen hungry offerings had slipped to their hearts' content the boy was in luck if he secured milk enough to decorate the shelf in the old spring house.

But this was long ago, in the days of ten cent butter, and before the milk oleomargarine appeared as a competitor. What the boy knew about farming and stock he gleaned from his father, and what the old gentleman didn't know about it, would fill a large book.

The last half century has wrought a wonderful change, and the farm has kept stride with the rapidly moving procession. The farmer's boy of the new century, if he could but realize it, is the peer of his rivals, for in no other field is the work of hand and brain so certain of substantial reward.

The Rock Island road has just started a seven-car agricultural train on a six weeks tour among the farmers of the state, for the purpose of furnishing scientific instruction on farming and stock raising.

All over the land this same spirit of enthusiasm is manifest and the farmer boy is coming into his own more rapidly than any class of boys in the country. The day of slipshod farming is of the past.

The Twilight club is honored by having as a guest tonight, the next governor of the state. The array of outside talent scheduled is a credit to the management.

## Heart to Heart Talks.

By EDWIN A. NYE.

## IS IT FAIR?

Yes, he is a bit. There is no mistaking his sort. Blotched face, bleared eyes, cringing pose, in a whining voice he begs you for a dime to buy a sandwich when you know it is a drink that he wants. If he gets you 10 cents and another or two, that will be enough to make him comfortably drunk. Somehow he will get more cheap whisky after awhile, and then he will be dumped into the police wagon along with other refuse humanity.

Wretched body of death! And yet do you know that vag in your brother—discarded, but a member of the family? Dishonored for his fault, discarded by his tribe, wretched, undone, nevertheless he belongs to the main family. You see, he may have been unfortunate beyond you.

Or the road he traveled was rockier than yours. Or his start was uneven. Or he met with an accident by the way.

Perhaps John Bunyan got the right of it. Pointing to a staggering sot, he said, "There, but by the grace of God, goes John Bunyan."

It is in order to ask what the family is doing for its weaker brother. Well, it licenses the saloon keeper to sell him stuff that steals his brains, pays a policeman to beat him over the head with a club, hires a judge to dupe him and pays the jailer a pike to feed him on bread and molasses.

What? Is that all the family does for one of the family who is sick unto death with the dread disease of alcoholism?

That is all.

Some day perhaps we shall be wise enough to develop the proper handicap. You know what a handicap is, say, in a race? The least able to run is allowed the start of the other contestants because of his inability. The others are handicapped.

We recognize the justice of handicaps in our sports, but not in real life. If that bum who whined like a dog for his dime was "born short" or became lame in his mind by the way we put the handicap on him, instead of upon ourselves, able to win—is that fair?

## Uncle Walt THE POET PHILOSOPHER

By WALT MASON.  
 (Copyright, 1909, by George Mathew Adams.)

When the famous William James quit this world and all its games, for the country where in time we all must die, he assured us that he'd send word of some kind to a friend, if the rules and regulations would permit. People say that he has tried to converse from 'tither side, but the wires in his condition seem to be; he no sooner makes a start than connections fall apart, and the only thing we've heard is "Tully Chee!" If he does arrange to talk you can bet a pound of chalk that the messages will be silly and absurd; for the ghosts will never tell of the regions where they dwell, never send to eager ears a helpful word. Men whose thoughts had sterling worth when they lived upon the earth seem to die in empty vagueness when they're dead; and the words they send us back seem to indicate a crack in the thinking part of every spectator's head. Men whose words were spiced with wit as this weary world they quit are as dull as cinders, barkers when they die, and they send us dreary

dope from the shining starry slope, and I often scratch my head and wonder why. If a ghost had any sense it would know that we're intense in our longing for some knowledge of that shore, where we find the journey's end—but the spirits only send stale remarks that jar our souls and make us sore.

## SLIGHTLY INJURED BY REVOLVER SHOT

Miss Mary Robbins Accidentally Shot on Sunday Afternoon, Up the River.

Miss Mary Robbins, who with her brother and family, Mr. H. W. Robbins, manager of the Union Pacific Ton company at 519 South Main street, was accidentally shot Sunday afternoon while practicing with a target revolver. Mr. H. W. Robbins and family, Miss Robbins and Miss Elsie Platen were up the river for an all day picnic. After dinner Mr. Robbins brought out a small twenty-two calibre target revolver and started to shoot at a mark. After a few shots he handed the weapon to his sister and as she stepped out of the way of some cartridges lying on the ground, she lowered the revolver and accidentally pulled the trigger. The bullet entered her leg three inches above the knee, Mr. Robbins immediately applied the first aid to the wound and even dug the bullet out from a point three inches below the knee itself and three quarters of an inch in the leg. Miss Robbins was hurried home and Dr. Mann called who dressed the injury. It is not thought she will suffer any serious effects from the wound.

## SOLDIERS OFF TO ROCKFORD TODAY

Cavalry Troop Left Janesville This Morning About Half Past Seven for the Forest City.

Troop "M" of the Fifteenth United States Cavalry from Fort Sheridan, which was camped at the fair grounds over night, left the city this morning about half past seven o'clock for Rockford, which place they expect to reach before this evening. Today's trip of about thirty-five miles is the longest they have attempted, thirty miles being considered a good day's travel. From Rockford the troop will go to Fort McHenry, Ill., where they will remain for three days. They expect to cover about three hundred miles in the twenty-one days' practice journey.

## The Splendid Stewart Is the Highest Grade of Base Burner A FULL DOUBLE HEATER

There are a great many reasons why this beautiful and perfect heating apparatus has proven itself the absolute leader of all hard coal heaters. In the first place, this stove is structurally perfect, that is, it has a system of fire travel which extracts from the products of combustion, the greatest percentage of heat units possible and utilizes those same heat units to their utmost by providing an immense radiating surface. In other words, the hot gases travel further before escaping and pass over more surface to absorb and radiate their heat than in any other stove made. Another point of superiority is in the perfect mounting of every part. Even the nickel trimmings receive special care in mounting and some of the joints are so close as to be almost invisible. It costs more to mount one of these stoves than three of the ordinary makes.

herewith can give no conception of the brilliant mirror like polish or the beautiful silver white color of all plated parts. The nickel is whiter in color and of heavier plate than others and resists discoloring from heat.

## Other Special Features

Extra large magazine, holding ample supply of fuel for twenty-four hours or longer.

Gas-tight automatic magazine cover of improved construction, which works freely at all times.

Large hot air collar for connecting with seven-inch pipe to heat upper rooms when desired. The heat can be diverted into lower room by cup damper.

Every stove a full heater.

Firepot almost straight, which gives large grate surface, insuring a clean fire.

Firepot has ample room for expansion and can be revolved to allow for equal wear.

Non-clinker grate of improved construction. Beveled shaking ring forces all ashes and clinkers to center, where duplex jaws remove them. No coal wasted with this grate.

Air-tight screw draft damper, also extra

large direct draft and check dampers give perfect control, and stove responds quickly to dampers.

Four poker openings give easy access to all parts of fire for slicing.

Extra large tea kettle attachment at rear.

Base flue clean-out in front, easy of access.

Heavy and strong mica doors, are fitted perfectly and held shut with turnkey levers of extra strength.

Dragon head nickel corner columns, fitted with invisible joints.

All nickel thoroughly ventilated to prevent tarnishing.

All joints, doors, dampers, etc., fitted perfectly, as tight joints, insure good operation and fuel economy.

Before you buy your coal heater see this stove. It's the best you'll see.

## A Season of Bands

HIGH-PRICED designers, who had the best Paris styles as

inspirations, designed our new Fall skirts. These students of fashion, on the staff of the Workshop of Worth, have facilities beyond those of the usual custom tailors.

To get the smart styles and fabrics, and workmanship equal to the skirts we show at \$5.75 to \$15, individual tailors would have to ask fully from \$12 to \$25.

Notice that banded effects dominate in skirts and that our collection includes the very cream of the Fall styles.

At \$5.75, \$6.75, \$8.75 are some rather remarkable skirts in the season's popular fabrics and shades, and in endless variations of pretty style effects.

**HOBO SAID HE WAS  
ROLLED BY TROOPER**

But He Only Had Twenty Cents On His Person and Both Were Badly Intoxicated.

Some of the troopers of the Fifteenth Cavalry sampled Jansville booze last evening and found it too strong for the welfare of their "systems." On complaint of a supposed hobo named William C. Green who was himself, too drunk to be intelligent, one of the soldier boys was arrested and put in the lock-up overnight. Green claimed that he had twenty cents on his person when he lay down to sleep in an alley and that the trooper tried to go through his pockets. There were others who claimed to have seen the trooper engaged in the act. However, the witnesses, also, were under the influence of liquor and it looked like a difficult case to prove. When the regimental authorities made a demand upon Chief Appleby for the wayward member this morning the head of the police department was glad to give him up without any discussion or debate of the question as to whether or not the troopers are a law unto themselves and not answerable to the code of municipality and state. Green, also, was stowed in a cell over night and had not entirely recovered from his "spree" this forenoon.

**GEORGE WHEELER AT  
MILES CITY, MONT.**

Former Physical Director at Y. M. C. A. is Now Located in New Association Building in West.

George Wheeler, formerly physical director of the Young Men's Christian Association here and his wife, are now located at Miles City, Montana, where Mr. Wheeler has secured a position as physical director of the association there. He is located in a new building, constructed at a cost of \$35,000 and is the first physical director there. The association is growing and Mr. Wheeler's opportunities for advancement are fine. In a letter received from him by Secretary J. C. Kline today he speaks very enthusiastically of his work there, and mentions meeting several Jansville people in Miles City, among them Earl Jerrick, who played in the Commercial league during the past season, and Errol Winters, who is in the west with Merrick.

**MISS SHORTNEY WAS  
SUDDENLY STRICKEN**

Miss Letitia Shortney, Trained Nurse, Passed Away Very Suddenly Yesterday.

Death came suddenly yesterday about noon to Miss Letitia Shortney, a trained nurse of this city, at her home, 601 South Main street. Kidney trouble, with which she was stricken on Sunday night, was the cause of her demise. The deceased was forty-two years of age, born May 20, 1868, in this city, and had been a life-long resident here. She graduated from the Jansville high school in 1889 and received the training for her profession in a school for nurses at Wauwatosa, Wis. Her mother, Mrs. Isabelle Shortney, with whom she made her home; two sisters, Miss Belle Shortney of Detroit, and Mrs. Harry Lohr of South Easton, Mass.; and two brothers, James of this city and John of Chicago, are left to mourn her loss. The funeral will be held Wednesday afternoon at 2:30 o'clock from the home, 601 South Main street, and Dr. David Denton will officiate.

**PREFERS PRISON TO  
A LIFE OF FREEDOM**

Jefferson County Woman Paroled After Twenty Years Behind Bars Asks to Be Recommitted.

Bidding goodbye to freedom forever, Mrs. Theresa Steinhilber, has of her own volition returned to the Wisconsin penitentiary at Waupun with a request that the prison be allowed to be her home for the remainder of her years, and that she be permitted to die within its walls a convict.

One of the few instances where freedom has been given a prisoner and there has been a request that it be taken away again has thus far occurred in Wisconsin.

On January 21 last Mrs. Theresa Steinhilber, who has served twenty years of a life term in the penitentiary for the murder of her husband in Jefferson county, was paroled. A few weeks ago she petitioned the board of control that the parole be revoked. So insistent was her appeal that, although the choice of the woman is a great grief to her relatives, the board finally reluctantly granted Mrs. Steinhilber's request. Mrs. Steinhilber was originally sent to the penitentiary from Jefferson county for the murder of her husband, who was found shot in his home one morning. Mrs. Steinhilber is close to 70 years old.

# What Good Will Come of Lighting Our Streets the NEW Way?

First—The city will immediately take rank with all the live, bustling, metropolitan cities of the country.

Second—The beauty and attractiveness of our downtown streets will be enhanced a hundred-fold.

Third—Every business man who conducts a store along a street lighted with these new **Electric Light Posts** will realize great benefits, and a noticeable increase in business.

Fourth—Every property owner who lends his aid towards getting these new **Electric Light Posts** placed along his frontage will actually have his property increase in value.

Fifth—Visitors who will come to this city will go away with a feeling and realization that Janesville is one of the booming cities of the middle west.

In considering what other cities have done in the way of lighting the main streets with **ELECTRIC LIGHT POSTS**, we will not devote much time to cities like New York, Chicago, Minneapolis, St. Paul, Indianapolis, and other larger cities.

Ask anyone, though, who has ever visited Waterloo, Des Moines or Davenport, Iowa, Omaha, Oklahoma City, Rock Island, Ill., Aurora, Kewanee, and countless other smaller cities, we say, ask anyone who has ever visited these and other cities, what they think of such a system.

The answer will be that they are live towns, that the merchants and property owners are more than satisfied with the investment, that having these **ELECTRIC LIGHT POSTS** along the main thoroughfares actually draws business to the stores, that buyers are attracted by the **ELECTRIC LIGHT** and so become accustomed to shopping at stores located on streets where the **ELECTRIC LIGHT POSTS** are placed.

It has been proven by business men in these cities that country buyers are ever attracted to the towns that have adopted this **ELECTRIC POST** system of street lighting.

We have figures which show the cost of installation of artistic, serviceable and practical **ELECTRIC LIGHT POSTS**—prices on both 3 light and 5 light posts. We also have figures which show the average cost to each firm for maintenance, that is keeping the lights in order, furnishing new lamps, new globes and keeping globes clean. We turn on the lights at dusk and turn them out at either 1 or 12 o'clock, whichever time will suit the merchants.

**ELECTRIC LIGHT POSTS** are economical, practical, more up-to-date and metropolitan, serviceable and artistic than any other form of street lighting yet devised. Turn a switch and a whole block is lighted at once with a bright, clear, cheap and attractive light that impresses everyone with the fact the city is a real city.

Merchants and property owners are invited to visit our offices on the Milwaukee Street Bridge and see photographs and blue prints of the various styles of **ELECTRIC LIGHT POSTS**.

**This Home-Made Cough Syrup will Surprise You**

Stops Even Whooping Cough Quickly. A Family Supply at Small Cost.

Here is a home-made remedy that takes hold of a cough instantly and will usually cure the most stubborn case in 24 hours. This recipe makes a pint—enough for a whole family. You couldn't buy as much or as good ready-made cough syrup for \$2.50.

Mix one pint of granulated sugar with 1/2 pint of warm water, and stir 2 minutes. Put 2 1/2 ounces of Phlox (fifty-cent) worth in a pint bottle, and add the Sugar Syrup. This keeps perfectly and has a pleasant taste—children like it. Braces up the appetite and is slightly laxative, which helps and a cough.

You probably know the medical value of pine in treating asthma, bronchitis, and other throat troubles, sore lungs, etc. There is nothing better. Phlox is the most valuable concentrated compound of Norway white pine extract, rich in salicylic acid and all the natural healing pine elements. Other preparations will not work in this formula.

The prompt results from this inexpensive remedy have made friends for it in thousands of homes in the United States and Canada, which explains why the plan has been imitated often, but never successfully.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Phlox or will get it for you. If not, send to The Phlox Co., Ft. Wayne, Ind.

**WOMAN'S PAGE****The Evening Chit-Chat**

By RUTH CAMERON.

There is one reason why I wish women would get the vote, even if I am not a suffragette, I wish they would get it and use it to purify the press. During the recent campaign, with all the talk about "white slaves" and other horrible evils, that I, a grown woman, had scarcely ever heard of before, the papers were anything but fit for a child to read. Such things should not be printed.

That was actually said by a grown woman before a large women's club recently. I clipped it from the paper.

Think of it. It almost made me an anti-suffragist. It would if I thought there were many women as dangerously narrow and shortsighted as that.

To me it is one of the most splendid signs of the times that papers are giving so much space to "all this talk about white slaves and other horrible evils." I wish they gave double. The more space they give, the more rapidly the betterment of conditions that is undoubtedly coming through the awakening of the public conscience, will be brought to pass.

Let me tell you, Mrs. False-Modesty Club Woman, what Eva Booth, the head of the Salvation Army in this country, a woman who ought to know as much as anyone in America of conditions in the underworld, said to me about the white slave traffic in New York.

"There has been a tremendous falling off of this kind of business in the last year, not so much through the enforcement of laws as through the fact which so much publicity has inspired in the white slave dealers and procurers, that they have been forced to close their eyes to the danger of the exposure of their accounts of it have not only awakened the eyes of mothers of young girls all over the country to the dangers that lie in wait for them, but they have thoroughly frightened these wicked men."

Would you have such things left out of the papers that the papers might be pleasant to read?

Would you have such things left out of the papers because of the possibility that your child might learn some of the facts of life?

Do you know the only kind of child that will get any harm from such articles?

The child who has reached the age when children begin to wonder about the mysteries of sex, and whose father and mother have not done their duty in explaining such things to him, and who is consequently trying to piece together an explanation from everything that he hears and reads. That child will morbidly devour such articles and may be harmed by them. But I do not think that any other child or any enlightened man or woman will derive anything from the reading of such evils, except a burning desire to try to better conditions.

I hope the newspapers will go on giving all the space they can spare to telling about such things, and for those who still disagree with me and still disapprove, I want to tell a little story that I always think of when I meet people like Mrs. False-Modesty Club Woman.

When Dr. Samuel Johnson published his famous dictionary, a woman came to him and said, "Dr. Johnson, I don't like your dictionary."

"Why, Madame," said the doctor.

"Because there are too many improper words defined in it," said the lady.

"Madame," replied Dr. Johnson, "I see that you have been looking for them."

A deep feeling of peace and rest would come over me. I would soon be floating away on the dreams of childlike faith and hope with which the very air was filled. It was a wonderful place in which to rest—body and soul.

I have often thought that the world would benefit by the adoption of open doors of the Protestant churches as well. It was with no small feeling of pleasure that I saw the sign "Rest Room" printed in large letters over the doors of a prominent Congregational church the other day. I went along reading. He was friendly and communicative and in response to my questions said that the church had been open but a short time, and that people had not yet become accustomed to its use. Few came in to rest. Power still seemed to think it anything but odd to so use a church. To many it seemed a desecration—just as in some parts of New England it is almost a desecration to wear one's Sunday clothes every day.

It was rather a cheerful room—taking it as a whole. The odor of sanctity was somewhat stale. It will take some years of familiarity with our religion to make it homelike. Like all new houses it needs to become respectably shabby before it will really seek like a sanctuary to sore and bruised spirits.

The move is in the right direction, however. We have begun—even if we are a little late and a little slow. I hope to see the day when every church is a resting place for the weary and a place where every soul is a part of the whole.

It is a part of every church. Open the churches to the people—for they are the ones who must make it home. If we would touch the hearts of men, homes are not made; for us. We make our own and how can we hope to feel at home in a home where we are only entertained on stated occasions?

TRANSYLVANIA GOES TO JOAN.

Cleveland Horse Wins Classic Race at Lexington in Record Time.

Lexington, Ky., Oct. 11.—Joan, property of Capt. David Shaw of Cleveland, Ohio, won the Transylvania stakes, the \$5,025 feature of the Grand circuit harness races, here in straight heats in the first of which she broke the world's record for four-year-old trotting fillies, going the mile in 2:05 1/2, half a second better than her own race record made at Columbus.

Grace, also owned by Captain Shaw, won the Championship Stallion stakes, worth \$4,025 to the winner. W. B. D. Stokes, breeder of her sire, Peter the Great, was awarded a \$250 silver cup.

CHILD OF THIRTEEN PLEADS UNWRITTEN LAW TO SAVE HERSELF FROM THE NOOSE.

13-year-old Katie Battl, who admits having killed her godfather, Pasquale Volpe with a white-hot poker.

Pittsburg, Pa.—For the second time in the history of local courts the unwritten law is being put forward as the defense of a self-admitted murderer.

The first was when Harry Thaw made his spectacular fight for liberty under the light of the gallows.

The second is that of little Katie Battl, who hopes to save herself from the hangman's noose through the unwritten law.

According to her counsel, John S. Baugh, Jr., the child has never denied she fired her godfather, Pasquale Volpe, into the collar of her home and there killed him, using as weapons an axo and a white-hot poker.

According to the girl's story it was in defense of her own honor, after an assault by her godfather, that she deliberately plotted against his life. After an assault this child went into the

basement of the home and Volpe followed her. While he was stooping over her, she lashed him repeatedly behind the ear on the right side of his head with an axo. To make his death certain the girl says she went to the stove and after heating a poker thrust it into his body several times.

Little Katie has borne up throughout the trial with remarkable fortitude. She has shown no emotion at any of the crucial moments and relies implicitly in an acquittal.

REST ROOMS.

By MARY HUSSELL.

Once upon very busy in a far southern city I was attracted by the open doors of an old

Catholic church. In the heart of the day, when with the strain of writing I would

stand away to an old mission built by the early

Jesuit fathers and the childlike Indians who were

their converts. The thick walls shut out the sun's

heat and the high, narrow windows allowed the air, perfume

laden, to drift in. There were no

ways stragglers in the pews. A forlorn Mexican beggar selling her beads

would give me with timid eyes at the approval. A friendly old priest in

streeting a class of children would give me a charming smile of welcome.

A couple of nuns would kneel with downcast eyes and stow moving lips

beckoning pardon of high Heaven for sin they had never committed. The high

guy ceilings, softened by time into a dim, old-world art shade, the tall pil-

lars carved boldly by some hand long since dead, the brilliant altar with its

flowers, the dim old pictures upon the walls all combined to create an atmos-

phere of rest which is undecipherable.

**"LIME IN THE BONES OF THE BOSS."**

"Lime in the bones of the boss" is a phrase used by Elbert Hubbard in stating the common causes of failure of business enterprises. Old bones contain an excess percentage of lime because they are short in other elements, not supplied in the food, or because the nutritive processes are failing. Efficiency depends upon nutrition, and so Mr. Hubbard's expression is a most suggestive one. Bricks can be made without straw, but bones without lime would not be bones. Calcium is the largest mineral element, except potassium, in all foods, including milk, which must contain it for building the bone of the growing young. Probably calcium is important in the process of supplying oxygen to the cells. Chlorine and calcium combine very readily, liberating oxygen. Fine white bread contains as much lime as the whole wheat, a larger percentage, in fact, but it contains no chlorine—and common salt does not give up its chlorine, being mineral, for it can be recovered after passing through the body.

**To Grow Hair On a Bald Head**

By A Specialist.

Thousands of people suffer from baldness and falling hair, and have tried nearly every advertised hair tonic and hair grower without results. Have resigned themselves to baldness and its attendant discomfort. Yet their case is not hopeless; the following simple home prescription has made hair grow after years of baldness, and is also successful for restoring gray hair to its original color, stopping hair from falling out, and destroying the dandruff germ. It will not only make the hair grow, and can be put up by any chemist. Buy (from C. O. Jones, Layton de Composed) 2 ounces, Steadfast Crystaline of dandruff. If you wish it performed add half to one teaspoonful of To-Kalon Perfume, which unites perfectly with the other ingredients. This preparation is highly recommended by physicians and specialists, and is absolutely harmless, as it contains none of the poisonous wood alcohol so frequently found in hair tonics. Do not apply to the face or where hair is not desired.

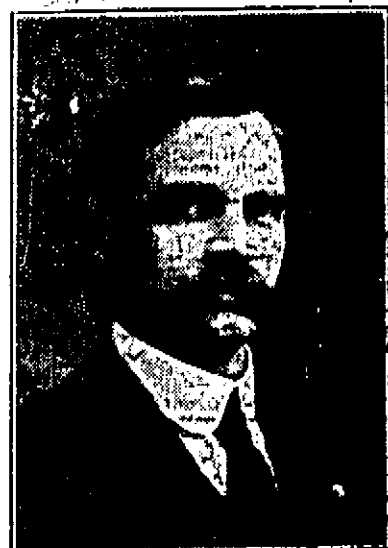

**YOUR DOCTOR AND YOUR DRUGGIST.**

Your Doctor is a Graduate who has devoted years of study to the diagnosis of disease and the application of medicine, the manufacture and compounding of medicine to meet the needs of the Pharmacist. Each study is equally important. The proper diagnosis must be followed by proper compounding of the Prescription. Of what use is the doctor without medicine, or medicine not scientifically compounded? A Graduate Doctor is entitled to the assistance of a Graduate Pharmacist. There is a difference between a Registered Druggist and a Graduate Pharmacist. No matter what doctor writes your Prescription, you have the choice of taking it to any drug store. Mr. Pfennig, a Graduate Pharmacist and Chemist, is in charge of our Drug Store. He would be pleased to be of service to you, bring your Prescription to him, Building Drug Co., Milwaukee & River, street, the Drug Store that makes a specialty of Drugs.

**What Would You Give for Health?**

Hundreds of sick people are spending all they can earn in a vain search for health. Hundreds of other sick ones, rich and with plenty with which to gratify every wish are spending money like water in a vain search for health.

What is the reason? Why do they not find it?

RAYMOND PUDDICOMBE

Because they follow along the old lines; ways that have for over a hundred years been followed in a never-ending search for the pot of gold at the bottom of the rainbow, for the search for health through dosing with medicine is a chimerical dream, one that will never be realized.

People come to my office every day and say, "Oh how I wish I had known of this wonderful way of being well before I had spent every cent I have in the world paying doctors' bills." Yes, it is too bad, but how about you, sick man or woman, who have just started in on the never-ending search for health by the medicine-dosing way? Will you be warned by the experience of others or must you, too, experience the agonizing disappointment that comes in ever trying and never succeeding?

For over a year now we have been showing by our work that our claims are founded on the solid rock of facts—facts so incontrovertible that they should need no proof—but to the doubting we show the proof. Hundreds of sick ones in Detroit, in Janesville, in Rockton, in Clinton; all "round about" the list has names of those who have proved by successful experience the fact that the Chiropractic science is the most wonderful thing of the day.

If you suffer from any ill there is a way to be well. There is a lining of hope to the black clouds of illness, not medicine, not being cut to pieces by surgery—but by putting the nerves in the pink of condition through adjustments of the spine—simple—practical and wonderfully successful.

We want every sick man and woman in this vicinity to come to us for an interview. It will cost you nothing to come in and let us tell you how to be well, and you know how much it is worth to you should you have your health restored.

If you cannot call upon us write and tell us about your case. We will tell you honestly just what Chiropractic Adjustments will accomplish for you. Is it not worth this small effort to know a perfect way to health?

## WHAT CURES ECZEMA?

We have had so many inquiries lately regarding Eczema and other skin diseases, that we are glad to make our answer public. After careful investigation we have found that a simple wash of Oil of Wintergreen, as compounded in D. D. D., can be relied upon. We would not make this statement to our patrons, friends and neighbors unless we were sure of it—and although there were many so-called Eczema remedies sold, we ourselves unhesitatingly recommend D. D. D. Prescription.

Because—we know that it gives instant relief, that it cures it. Because—D. D. D. starts the cure at the foundation of the trouble. Because—it cleanses, soothes and heals the skin. Because—it enables Nature to repair the ravages of disease. Because—The records of ten years of complete cures of thousands of the most serious cases show that D. D. D. is today recognized as the absolutely reliable Eczema Cure.

Drop into our store today, just to talk over your case with us. J. P. Baker, Janesville, Wis.

## Food Is More Easily Digested When Rumford is Used

There are two reasons why Rumford Baking Powder makes food that digests—first, it leavens perfectly—it raises at just the right time and in just the right manner—second, is a food in itself and an element that is necessary to health—it restores the nutritious elements to the flour which are taken out by the miller. Does not contain alum.

If you would have palatable, light, delicious and wholesome food, use

**THE WAR—SIEGE OF PARIS.**

London, Oct. 10.—A note from the Prussian Government informs the powers that Paris threatens to hold out until starved. In that event two millions of people would be in the hands of the Prussians who would be unable to furnish supplies for a single day, as there is nothing edible within several days' march of Paris. Hence people cannot abandon the city by roads. The inevitable consequence will be that hundreds of thousands must starve. The Germans, nevertheless, must prosecute the war, and those holding power in France will be responsible for the results.

## ENDS MISERY FROM INDIGESTION OR A SICK, SOUR, GASSY STOMACH

A little Diaphepsin makes your out-of-order stomach feel fine in five minutes.

The question as to how long you are going to continue a sufferer from indigestion, dyspepsia, or out-of-order stomach is merely a matter of how soon you begin taking some Diaphepsin.

If your stomach is lacking in digestive power, why not help the stomach to do its work, not with drastic drugs, but a reinforcement of digestive agents, such as are naturally at work in the stomach.

People with weak stomachs should take a little Diaphepsin occasionally, and there will be no more indigestion, no feeling like a lump of lead in the

stomach, no heartburn, sour risings, Gas on stomach or belching of indigestible food, flatulencies, Diarrhea or Sick Stomach, and, besides, what you eat will not ferment and poison your blood with noxious odors. All these symptoms resulting from a sour, out-of-order stomach, and dyspepsia, are generally relieved in five minutes after taking a little Diaphepsin.

Go to your drugstore and get a 50-cent case of Diaphepsin now, and you will always go to the table with a hearty appetite, and what you eat will taste good, because your stomach and intestines will be clean and fresh, and you will know there are not going to be any more bad nights and miserable days for you. They freshen you and make you feel like life is worth living.

This is the Stove Polish All the Housewives Are Talking About

It is so much better than other stove polishes that it is a class all by itself.

**Black Silk Stove Polish**

Makes a brilliant, silky polish that does not rub off or fade out, and the shine lasts four times as long as ordinary stove polishes.

Used on sample stoves and sold by hardware dealers.

All we ask is a trial. Use it on your work stove, your parlor stove or your gas range. If you don't find it the best stove polish you ever used, your dealer is authorized to refund your money.

Black Silk Stove Polish Works L. E. WYNN, Makers, Sterling, Illinois. (The Black Silk Stove Polish is sold by all dealers in hardware, paint, oil, and gas.)
